

PART TIME JOB AT FRIEDLANDER FURNITURE RED HOOK BROOKLYN, NYC

I am seeking a skilled part-time woodworker to assist with production at my company, Friedlander Furniture. As a 2018 alumnus of the nine-month CFC intensive, I have great appreciation for the skill and knowledge alumni of the school have garnered. The position I'm looking to fill would require 2-3 days a week at my Red Hook studio/bench space. I have numerous furniture and cabinetry contracts lined up and am in need of an extra set of hands so I can continue to take on more jobs. Whether you are a three to nine month intensive student or a CFC superstar returning to NYC, please reach out. I was able to get my start professionally working in the same space for another CFC alumnus, so I would love to continue the tradition. Pay is determined by experience.

Friedlander Furniture seeks to design functional furniture with a dash of playfulness and cultural significance. We are driven to design intergenerational pieces that become a practical part of your family. Check out the work to see if you are interested.
