

ARCHITECTURAL WOODWORKER/FURNITUREMAKER

Immediate opening for Architectural Woodworker/Furnituremaker in York County custom woodworking shop.

Veneer Services Unlimited is a specialty shop producing products for other woodworkers that range from guitars to large-scale veneered architectural installations and includes everything in between.

We are looking for a precise and meticulous woodworker to join our close-knit team. Some experience with veneer work is a plus but not required. However, if you don't like veneer or cannot work to close tolerances, this is definitely not the job for you.

You MUST:

- Have good communication skills: be able to read, write and collaborate with other workers
- Be able to do simple arithmetic (add, subtract) without use of a calculator and do more complex arithmetic using a calculator
- Understand basic geometry (circles, angles, etc...)
- Have patience and problem-solving skills
- Be quality- and precision-oriented
- Be able to lift frequently
- Be able to lift at least 75 pounds
- Be able to read and understand architectural drawings
- Be able to use a tape measure to measure and cut parts to within 1/32"
- Be experienced in the use of classical woodworking machines: tablesaw, jointer, planer
- Be experienced in hand woodworking skills: scraping, sanding, use of block plane, etc...
- Not be drug-, alcohol-, or tobacco-dependent
- Be able to limit phone use to breaks and emergencies
- Provide work references

This can be a rewarding job for the right person. We have a friendly work environment and challenging projects that will keep you on your toes. We are a safety-conscious team and that includes COVID safety; all employees must be fully vaccinated against COVID and there may be times when you will be required to wear a mask at work.

Please reply to this ad with resume or a description of your qualifications along with references and portfolio (if available).
